This week could be trickier than it looks on the surface. Starting on Monday and Tuesday, while the Pisces moon makes people "dreamy," and perhaps feeling as though they have excuses to do silly and inconsiderate things, such behavior won't be tolerated for long. Mercury's move into Aries will bring on a mood of brusqueness and sharp wit that could deliver a lot of messages - many of them not so kind.

The sun's move into Taurus, meanwhile, will allow us to feel Spring's firm hold on the spirit of growth and abundance. We might have to compensate for the steady Taurus mood, however, by being more forceful and energetic than we might normally tend to be.

The new moon in Taurus will help us to do this, as we go forward with our plans, determined to see them through to the finish.

Here are some important dates and times, all are in the Eastern US zone:

April 16: Mercury moves into Aries, 6:42 PM

April 19: Sun moves into Taurus at 12: 12 PM

MOON VOID OF COURSE

Moon Void of Course: When the moon has stopped interacting with other planets while it is in one sign, it is "void" until it enters the next sign. During these periods, it's difficult to make connections, arrange meetings and make purchases. Care should be taken in all these matters. The good way to use this energy is to finish up what you've already started, and wait for a better time to start anything new. Here are the void of course times for this week:

Tuesday April 17 10:34 AM-Wednesday April 18 11:59 AM

Friday April 20 3:35 PM-Saturday April 21 3:18 AM

Sunday April 22 1:10 PM-Monday April 23 1:05 PM
